SUMMARY

Data Analyst with 1+ year of freelance experience helping e-commerce, logistics, and ad-tech clients turn operational data into decisions. Full-loop coverage: SQL/Python pipelines, dbt models, Power BI/Tableau dashboards, so stakeholders see numbers built on data I trust. Finalist, IIT Guwahati Data Analytics Hackathon.

TECHNICAL SKILLS

- **Languages & Databases:** Python (Pandas, NumPy, Scikit-learn), SQL (PostgreSQL, MySQL), Advanced Excel
- **BI & Visualization:** Power BI (DAX, data modeling), Tableau, Matplotlib, Seaborn
- **Data Engineering:** dbt, Apache Airflow, ETL pipeline design, REST APIs, web scraping
- **Methods:** Statistical analysis, time-series forecasting (ARIMA), churn modeling, KPI design
- **Tools:** Git, GitHub, Jupyter Notebook, VS Code

EXPERIENCE

Data Analyst (Freelance)

Remote, clients across e-commerce, logistics, and ad-tech | Aug 2024 - Present

- **E-commerce inventory:** built ARIMA forecast on 18 months of history across 200+ SKUs: stockouts down 25%, excess inventory down 30%.
- **Logistics startup:** designed and deployed 5 Power BI/Tableau KPI dashboards for fleet operations: on-time delivery up 15% in one quarter.
- **Ad-tech:** analyzed 500K+ ad request logs to isolate peak-hour server bottlenecks: recommendations lifted ad-fill stability 18%.
- **Reporting automation:** replaced a 10-hour manual reporting workflow with a Python/SQL pipeline processing 1M+ events daily, zero manual intervention.

PROJECTS

Customer Churn MLOps Pipeline | Python, dbt, Airflow, LightGBM, FastAPI, Streamlit

End-to-end churn prediction: dbt staging/marts on PostgreSQL, LightGBM with automated quality gates, daily Airflow batch scoring, FastAPI inference API + Streamlit retention dashboard.

Competitor Pricing Intelligence | Python, MySQL, Power BI

Automated scraper collecting pricing and inventory data across e-commerce platforms; cleaning scripts with MySQL store; Power BI dashboard tracking competitor price moves.

IIT Guwahati Hackathon (Finalist) | Python, Scikit-learn

Multi-label ML on 26K+ survey records predicting H1N1 and seasonal flu vaccine uptake; evaluated on mean ROC-AUC.

EDUCATION

B.Tech, Computer Science & Engineering | 2020 - 2024

University of Engineering and Management, Jaipur
